

Social Work Course Descriptions

BIOL 220: Human Anatomy & Physiology (4)

Prerequisite: BIOL 150 General Biology/Lab, CHEM 115 or 121 General Chemistry

This course is an introductory study of the basic chemistry, cellular biology, integument system, skeletal system, muscular system, and nervous system.

PHIL 101: Introduction to Philosophy (3)

Prerequisite: None

This course explores the questions which human beings have perennially asked themselves about existence, truth, the world in which we live, and the purpose of life. Emphasis will be placed on key philosophers who have shaped Western Culture and draw a broad outline on Native American Culture and Thoughts.

PSYC 111: Introduction to Psychology (3)

Prerequisite: None

This course provides the student with scientific terminology, theory, and fundamentals necessary to understand those forces which direct the behavior of human beings in their environment.

SOCI 110: Introduction to Sociology (3)

Prerequisite: None

This is a study of society, socialization processes, social groupings, social stratification, social institutions, social movements, and social change incorporating American Indian perspectives.

SWK 255: Social Work in the Modern Society (3)

Prerequisite: None

An introduction to the social work profession including: the development of the profession, generalist practice, the problem solving process, the strengths perspective, social work values and ethics, levels of practice, and fields of practice; 40 hours of volunteer experience.

SWK 257: Human Behavior in the Social Environment (3)

Prerequisite: Introduction to Psychology or Sociology

This course of study provides a better understanding and appreciation of the different racial, ethnic and nationality groups in the United States. The knowledge gained through the course about racial injustice and inequality is intended to help the student to gain perspectives to help deal more effectively with racial problems intrinsic to this society.
