## **Resource Information**

TMCC offers free and confidential on-campus counseling services to all TMCC students. Services offered include individual and group counseling and/or referral to appropriate local agencies. Counseling Services aims to increase awareness and knowledge of general mental health issues as well as issues specific to college students. This is done through daily, weekly and monthly mental health awareness activities. Our goal at TMCC is to assist students in being *the best they can be* both at home and at school! Life often presents people with obstacles which may interfere with their educational progress and goals. Students who are dealing with personal issues such as depression, anxiety, substance use/abuse issues, grief, current or past trauma, crisis, low self-esteem, ADHD, learning disabilities, or any other issues that are affecting their ability to function at their best potential should not hesitate to call, e-mail, or stop by the Counseling Services Office which is located on the South side of the Auditorium.
